All your streaming services on a single platform All the videos you want on your smartphone Transform your Android device into a remote control TV, radio, movies - all in one A lightweight version of the popular video app A dynamic way to edit your videos Share fun moments with all your friends I really enjoy this app. It's extremely user friendly and is awesome for smaller projects but at least for me, we I start to add too many videos, photos, effects, etc. the app overloads and shuts off. Sometimes it will do it if I click out of the project quick or will do it in the middle of it. I really hope they fix that issue and also start developing it more with more effects, graphics, etc. Operating system : Windows 11/10/8/7/Vista (64-bit) License : Shareware (No Adware/Spyware/Virus), EULA Version : Bandicut 3.6.7.691 - 05/03/2022 (Version History) If the product is registered, the Bandicut watermark will not be added to the video and the editing speed will be much faster.
